ALL	Resistant	Pod Shatter Reduction
2 nd Generation Clubroot Resistance		

POD SHATTER REDUCTION AND CLUBROOT-RESISTANT HYBRID.

Featuring patented Pod Shatter Reduction technology and second generation clubroot resistance, this hybrid is a great fit for growers in known clubroot-affected areas. We recommend growing InVigor L234PC with second generation clubroot resistance after two cycles of growing first generation clubroot-resistant hybrids in clubroot-affected areas or when clubroot symptoms are noticed in first generation clubroot-resistant hybrids (whichever comes first).

Visit InVigorResults.ca to see how this hybrid performed in your area.
